

Week 6

Team project update/progress

Table of Contents

- 01 Weekly Progress Summary
- 02 Implementation Division
- 03 Test run
- 04 Next Steps

Weekly Progress Summary

Area	Progress Made
Implementations	All team members were able to push their code to their branch and create a pull request
Code Review	After creating the pull request, each member tested someone else's code to check if everything was correct
Merge	After review, each member merged their code to the ui-panel branch
Website and Files	Every file is now updated

What each team member worked on

Member	UI Section
Jake	Multiple clone UI
Amaro	Explanation section
Juliana	Diff preview
Dhir	AI Trust / validation
Fin	Buttons / actions

Test Run

We will have a team member test the new ui-panel now

Next Steps

Merge to Main branch

Review changes, fix conflicts, then merge accepted pull requests into the Main branch
(will be done by professor AlOmar)

Overleaf

Start working on Overleaf.

Keep updating

Keep the rest of the team updated sending screenshots of your work throughout the week.
Update the website content.
